*Our Invitation to*

# The Iowa Royal

The Iowa Royal Sale, for more than twenty years a highly regarded and widely recognized event has been sponsored by the Iowa Shorthorn Breeders Association.

Its reputation has become such that each year the Association and consignors to this sale strive harder to improve this sale and the quality of its offering.

For 1973 the Iowa Shorthorn Breeders Ass'n which is a joint organization of Iowa Shorthorn and Polled Shorthorn breeders is extremely proud of its members' offering, outstanding individuals of both branches of the Shorthorn breed. It will be the best offering ever.

In the last several years these consignors have recognized the kind of beef animal demanded by the present day beef cattle industry. They accepted the challenge, used every tool at their command and are proud of the progress they have made.

Therefore, in this offering of 50 bulls and 15 females the results of their efforts are definitely apparent.

A study of this catalog will show that this sale offers good Shorthorns and Polled Shorthorns in every category of performance such as universally accepted breeding, show records, sales records, official performance testing records and fertility tests.

Year after year breeders, ranchers and farmers from a wide area and many states have come to the Iowa Royal for their improving herd bulls and foundation females. Their annual return must be considered proof of their satisfaction with the results. The last several years commercial producers interested in crossbreeding have found this sale a reliable source for their crossing seed stock.

In addition, junior club members and breeders in increasing numbers have found this sale an ideal place to obtain their junior project and future herd foundation females.

Plan to attend this sale. We are confident that this offering will fill the needs of everyone.

**HOMEDALE NERO**—This outstanding, big, massive bull has the individuality and ancestry that is hard-to-improve upon and offers a rare opportunity to buy this kind of a proven sire. After running out with a cow herd all summer he weighs 2010 lbs. He is recorded as horned but has been used in a horned herd and 90 per cent of his calves have been Polled. He is a half-brother being by the same sire as the famous STONE OAK LEADER x who was twice an All-American and Grand Champion at 11 of the continent's leading shows in 1971-72 for Acadia. His great dam produced the 1971 Iowa State Fair Grand Champion Bull, now a service sire in the Kaehler herd and weighing well over a ton. Considering his proven background and individuality, here is the kind of big, practical, useful bull that the future beef cattle industry will demand. Homedale Nero will speak for himself better than words and solve any herd bull problem. He is sound, sure, active and sells fully guaranteed.

NELCO ROYAL GALAXY x—a big, strong, dark red, two-year-old bull that is ready for heavy service. His sire, bred by Martin Nold, has done a top job in the Frederickson herd in North Dakota. His dam represents the very best Polled breeding. This bull is deep in Polled breeding and should be a good dehorner. Also this breeding is noted for its size, substance and ability to do well for others.

**PROSPECTOR VIKING x**—A good, big, long, modern two-year-old bull that is ready for heavy service: As a calf he was an All-American candidate. As a member of the 1972 show herd he did very well being the reserve grand champion bull at the 1972 Minnesota State Fair and a winner at many other 1972 shows. His sire was an International Supreme champion Polled Shorthorn bull. His dam's breeding is backed by the very best of Polled breeding. Many should consider this bull very seriously.

# **STANDARD GUARANTEE**

**Recommended by American Shorthorn Association**

- A. Proper care must be given by purchaser to protect breeding qualities and health of guaranteed animals.
- B. All bulls are guaranteed breeders, provided they are not allowed to serve when under 14 months of age, or allowed to run with the herd when under 20 months of age. In case of failure of a bull to be a breeder, notice shall be given to the seller within six months of date of purchase, or by the time the bull is 20 months of age, if purchased under 14 months of age.
- C. With the exception of heifers sold under 14 months of age, all females are guaranteed breeders. Heifers under two years of age, shall not be served by a heavy or old bull. Cows or heifers sold as bred, or safe in calf, not proving to be in calf must be reported to the seller within three months after date or sale. Females over 14 months of age sold open, not settling within six months after date of sale, shall be promptly reported to the seller.
- D. When an animal fails to comply with the above guarantee the seller has the option of substituting an animal of equal value to the satisfaction of the purchaser, or of having the animal returned for a trial for a period not to exceed six months. The expense of freight in such case is to be paid by the seller. If the animal is then proved to be a breeder beyond doubt it shall be returned to the purchaser at his expense. In case of dispute the return of the full purchase price, without interest, to the buyer will be considered full settlement and satisfaction to all claims. No charge for feed or maintenance shall be made by either buyer or seller. Salvage shall go to the seller. It shall be understood that the same guarantee given for the first animal shall likewise apply to any animal later substituted.
- E. In the event an animal is returned by the buyer to the seller as a non-breeder the buyer must furnish to the seller a veterinarian's certificate showing that his herd is healthy if such a certificate is required by the seller.
- F. All animals cataloged have been tested for T. B. and are clean, and have also passed a test for Brucellosis thirty days prior to the sale, or are accompanied by a Bangs Vaccination Certificate. Announcements will be made covering animals not clear from vaccination.
- G. Certificates of registry and transfer will be furnished with each animal sold. A signed pedigree application for unborn calves should be furnished with bred females showing names and record numbers of sire and dam, as well as service date.
- H. All prospective buyers should check health requirements of their states. Health certificates will be provided with each lot sold.
